

Questions Support Implementation

Use the following discussion questions to help stakeholders understand and improve implementation of their efforts.

What's working

Where and how is implementation going well?

- What is working?
- Why is it working?
- How can we reinforce effective implementation strategies?

What's not working

Where and how is implementation not going as well?

- What implementation strategies are not working as well? Why?
- What implementation barriers are emerging?
- How can we address these issues?

What are we learning?

What are we learning about emerging implementation:

- successes and how to support them?
- barriers and how to address them?

What's needed?

What changes...

- does our collaborative need to make to address these conditions?
- do our organizations need to make to address these conditions?
- do each of us personally need to make to address these conditions?

What are our next steps?

What are the next steps – as an initiative, an organization, and an individual - in making the changes we have suggested?

- What resources or supports might be helpful?

How can we apply this moving forward?

How can we collectively apply what we have learned moving forward?

- How will each of us personally apply what we have learned?
- What follow-up would help us more effectively apply what we have learned?
